

# Pilot Light

Von Smith

You gotta keep lit  
Burning inside  
You gotta keep it lit  
I'm talkin' 'bout your pilot light

Feelin' that chest burn  
Givin' me such worried feelings  
Makin' my stomach turn  
My every breath you're steeling  
Will I ever learn  
So sick and tired of you always winning  
Whole world is upturned  
Stuck upside down up against the ceiling

But I can't get too close  
I can't let you take over me  
I can't just let you go  
can't let you grab a hold on me

Cause you're only in it for the game  
Not in it for the same things  
I want to be in my life  
You wanna dance inside the motel  
Please don't come on over  
You're about to blow out my pilot light

It's gotta be somethin' real  
that makes you feel you're gonna be alright  
but if you're weak and your hearts asleep  
You ain't gon' feed that fire inside  
And keep it alive you'll just let it die  
You're gonna blow my pilot light

You gotta keep it lit  
burning inside  
you gotta keep it lit  
I'm talkin' 'bout your pilot

It doesn't take a surgeon to see  
That you and I are not meant to be

You can't take what I said seriously  
So I think it's time for you to get up and leave  
Trust me it is better this way  
We've wasted too much time already  
I can think of one last word to say  
So baby end this lets be free  
And don't come crawlin' to me  
Oh don't you even try to pretend  
You really got what I need  
Cause sugar honey I ain't your friend

Cause you're only in it for the game  
Not in it for the same things  
I want to be in my life  
You wanna dance inside the motel  
Please don't come on over  
you're about to blow out my pilot light

It's gotta be somethin' real  
that makes you feel you're gonna be alright  
But if you're weak and your hearts asleep  
You ain't gon' feed that fire inside  
And keep it alive you'll just let it die  
You're gonna blow my pilot light

If it's a slow motion break filled with smoke and lights  
If it's in technicolor or black and white  
There is no questioning if it's wrong or right  
it doesn't matter to see you gotta keep it alive

It's gotta be something' real  
That makes you feel you're gonna be alright  
But if you're weak and your hearts asleep  
you ain't gon' feed that fire inside  
It's gotta, gotta be, something real  
That makes you feel it baby, everything's alright  
But if you're weak baby, and your hearts asleep  
You ain't gon' feed that fire inside  
And keep it alive you'll just let it die  
You're gonna blow my pilot light
