

# Rest of My Life

## Selectracks

Take a good look and remember  
I'll never be the same and  
The birds of a feather  
Can't stop this life from changing  
My comforts become a cage  
It's my time to turn the page

### Chorus:

This is the first day of the rest of my life  
I've been so farther loved inside  
And on the first day of the rest of my life  
Turn the key and set me free then  
Spread my wings and watch me fly

I'm ready  
I'm able  
The cards are on the table  
Whatever (whatever) will be will be  
I'm finally (finally) becoming me!

### Chorus:

This is the first day of the rest of my life  
I've been so farther loved inside  
And on the first day of the rest of my life  
Turn the key and set me free then  
Spread my wings and watch me fly

This is the first day of the rest of my life (rest of my life)  
I've been so farther loved inside (farther loved inside)  
And on the first day of the rest of my life (rest of my life)  
Turn the key and set me free then  
Spread my wings and watch me fly

Turn the key and set me free then  
Spread my wings and watch me fly  
Watch me fly ~
