

# Neglected

## Edgewater

I feel sometimes  
That she's not missed at all  
I feel sometimes  
That she's been left behindI feel sometimes  
That she's neglected  
I feel this time  
That she will riseWhy has her life been dismissed?  
Somebody tell me  
Why has her life been dismissed?Cold December day, I walk in well there, there she lay  
Her skin was bare, the tears rolled down her face  
They're tears of fear and death takes her place  
And I am scared ofWhy has her life been dismissed?  
Somebody tell me  
Why has her life been dismissed?She needs more time  
She needs more time  
She needs more time  
She needs more timeToday is not a good day, she left the life she lived  
Today is not a good day, she left the life she's given  
Today is not a good day, she left the life she lived  
Today, today, todayToday is not a good day, she left the life she lived  
Today is not a good day, she left the life she's given  
Today is not a good day, she left the life she lived  
TodayWhy has her life been dismissed?  
Somebody tell me  
Why has her life been dismissed?Why walk away? Why walk away?  
Why walk away? Why walk away?  
Why walk away? Why walk away?
