

Nobody Knows

Live

I was on a street with a common name
I prayed for love, yeah, I even begged
I had a vision of you, that carried me through
Now it's just magic worlds in a shaman's dream
I fear no man, I fear no pain
I had a vision of you that carried me through
And nobody really knows what I would do for you
Nobody really knows how much I love you
Nobody really knows, nobody knows
Nobody knows, nobody knows
I cleared my mind and I turned around
Grateful to the one who had laid me down
I was silent in love pourin' down from above
Like so much rain it fell and pierced my brains
The trees all alive with their colors like the dreams of man
I had a vision of you that carried me through
And nobody really knows what I would do for you now
Nobody really knows how much I love you, baby
Nobody really knows, nobody knows
Nobody knows, nobody knows, nobody knows, yeah
I was on a street, yeah, with a common name
I prayed for love, oh baby, I even begged
I had a vision of you that carried me through
And nobody really knows what I would do for you
Nobody really knows how much I love you
Nobody really knows, nobody knows
Nobody knows, nobody knows
Nobody knows, nobody knows, yeah
Nobody knows, nobody knows, oh
Nobody knows how much I love you
Nobody knows how much I
Just what I'd, just what I'd do
Just how much, just how much
[Incomprehensible] baby
