

# Before the Goodbye

[Britney Spears](#)

Layin' here in your arms and you hold me tight, tight  
Tryin' not to watch the clock  
Tick-tickin' as the time goes by And I know that you'd best be on your way  
But I'm wishing I could make you stay  
Stay with me forever Though you're near  
Still, I wanna make it clear  
Love, I will always be around You're leaving, I'm waiting  
Forgive me, I'm always missing you  
Before the goodbye I feel it already  
Forgive me, I'm always missing you  
Before the goodbye Kind of hard for me to let you know  
Seldom let my feelings show  
How much I'll be missing you All the little things that make me weak  
Your eyes and the way you speak  
Without you baby, I'm not me Though, you're near  
Still, I wanna make it clear  
Love, I will always be around You're leaving, I'm waiting  
Forgive me, I'm always missing you  
Before the goodbye I feel it already  
Forgive me, I'm always missing you  
Before the goodbye You're leaving, I'm waiting  
Forgive me, I'm always missing you  
Before the goodbye I feel it already  
Forgive me, I'm always missing you  
Before the goodbye You're leaving, I'm waiting  
Forgive me, I'm always missing you  
Before the goodbye I feel it already  
Forgive me, I'm always missing you  
Before the goodbye You're leaving, I'm waiting  
Forgive me  
I'm always missing you before the goodbye
