My Eyes Are Blue

Dean Wareham

I don't know why
My eyes are blue
I only know
They follow you
We'll love you in the meantime
We're racing for the clock
We'll love you in the leantime
But how could we lose
When we've already won
Now that it's gone
I don't know what to do
Everything I start
And then I quit before I'm through
I don't know why
My eyes are blue
I only know
They follow you
We'll love you in the meantime
We're racing for the clock
We'll love you in the leantime
But how could we lose
When we've already won
Tell me again
About the Argonaut sea
Tell me again
About the sailors
So free
I don't know why
My eyes are blue
I only know
They follow you
We'll love you in the meantime
We're racing for the clock
We'll love you in the leantime
But how can you leave
When the dance has just begun
Will of a wisp
Light of the fall
Pictures of Egypt

Align on the wall
I don't know why
My eyes are blue
I only know
They follow you
We'll love you in the meantime
We're racing for the clock
We'll love you in the leantime
But how could we lose
When we've already won
I don't know why
My eyes are blue
I only know
They follow you
We'll love you in the meantime
We're racing for the clock
We'll love you in the leantime
But how could we lose
When we've already...
How could we lose
When we've already won
