

Dying Man

[Josh Kelley](#)

Maybe time will arrive when I've almost made it
Can't deny for the fight is never stated
Feelin' right, not to tight, and still they hate it
So you can take this rhyme,
'cause my mind is fellin' jaded We go down round down round again
We down round this life again
We go down round down round again
We go down, we go round Same ol' time in the night they come to get me
Fellin' fright, outa sight, it's time to get free
Never meant for them to catch me
but I stayed to close
Never thought I'd be brought down
just for the path I chose We go down round down round again
We down round this life again
We go down round down round again
We go down, we go round
