

# You Done Me Wrong

Ray Price

Well you tell me that you care  
But now you're gone, you got me cryin'  
No use denyin', you done me wrong  
If I could look inside your heart  
Then maybe I would know the reason  
Why you are leavin' me all alone  
Well you know it's not so  
When you say it's right, you know you lie  
I didn't do one wrong thing to you  
Won't you tell me baby  
Why you went and left me here so lonely?  
I miss you only for I love you  
If I ever make you sad  
So you'd be mad and love to hurt me  
And desert me for so long  
Well you're telling everyone  
What you done you think it's funny  
Well listen honey you done me wrong  
Well you know it's not so  
When you say it's right, you know you lie  
I didn't do one wrong thing to you  
Won't you tell me baby  
Why you went and left me here so lonely?  
I miss you only for I love you  
Well you know it's not so  
When you say it's right, you know you lie  
I didn't do one wrong thing to you  
Won't you tell me baby  
Why you went and left me here so lonely?  
I miss you only for I love you
