

# Ready for the Blues

Michael Hill

People like to talk about down home blues  
Well home is where the heart is if you want to know the truth  
There is blues in county, blues in the city too  
You can try to relocate, but the blues will get around to you

Lots of folks are running from the future or the past  
But you can't out run the blues, baby blues were built to last  
There was blues yesterday, there'll be blues tomorrow too  
You can but you can't hide, the blues will get around to you

Are you ready for the blues?  
Are you ready for the blues?  
No matter what you do  
The blues will get around to you

If you're feeling really low and you think you want to cry  
If everything's beautiful and you're on a natural high  
If you're black, white or yellow; Red, young or old  
The blues one day will grab you and satisfy your soul

Are you ready for the blues?  
Are you ready for the blues?  
No matter what you do  
The blues will get around to you
