

Ain't

Outshyne

You could be sittin' all the way on the other end
Of this bench seat
Thinkin' how being right here right now's the last place you outta be
Keeping that small talk rollin'
Just enough to keep me from knowing
The real you but baby, you ain't

You're straight up wrecking me
Sittin' right next to me
All up in my head like a number one melody
Loving everything, everything that you're tellin' me
Opening up when you oughta be pushing me away
But baby you ain't

I could be taking these kisses
off of your lips a little too far
Let my head do the talking
instead of letting you hear from my heart
Acting like you ain't driving me crazy
I'm only into you just a little kinda maybe
Awe, but baby, baby I ain't

straight up wrecking me
Sittin' right next to me
All up in my head like a number one melody
Loving everything, everything that you're tellin' me
Opening up when you oughta be pushing me away
But baby you ain't

You're straight up wrecking me
Sittin' right next to me
(Yeah)
(Said)

You're straight up wrecking me
Sittin' right next to me
You're straight up wrecking me
Sittin' right next to me
All up in my head
Like a number one melody

Loving everything, everything that you're tellin' me
Opening up when you oughta be pushing me away
Yeah, pushing me away
But baby you ain't
