

# Going Numb (Album Version)

## No Motiv

Why can I  
just feel something besides  
just some numbness?  
No pain  
no happiness inside  
I can feel at all  
I can seem to  
grasp what going on  
without going into  
some kind of trance  
it so bizarre  
I can feel at all  
I can see at all  
No sign of emotion  
nobody is listening to me no  
no nervous reaction  
Just another  
blank expression for me  
what wrong with me?  
Senses dull now  
staring at the wall  
it must be a defect  
Going numb and  
I can feel at all
