

# This Heart Is a Stone (Johan Hedberg 4/4 Mix)

## Acid House Kings

They say your middle name is trouble  
But I know it's Caroline They say you remind them of problems  
But I think you look like Audrey Caroline, I know that you put on a show  
Every time you two disagree This heart is a stone  
No one will ever break it  
This heart is a stone  
Close to you it breaks easily  
Cause everything that they say  
It tells me to go away  
But everything that I feel  
It tells me to stay They say they can smell the drama  
But I know it's No. 5 They say you only bring heartache  
But I know you bought a bottle of wine Caroline, I know that you put on a show  
Every time you two disagree This heart is a stone  
No one will ever break it  
This heart is a stone  
Close to you it breaks easily  
Cause everything that they say  
It tells me to go away  
But everything that I feel  
It tells me to stay They say you're like a Monday morning  
I say you're like a Friday night  
I don't get their point  
Anytime is a good time for being with you This heart is a stone  
No one will ever break it  
This heart is a stone  
Close to you it breaks easily  
Cause everything that they say  
It tells me to go away  
But everything that I feel  
It tells me to stay
