Please

Turn Off The Stars

Wait, oh, what a beautiful place
Sun's breaking onto my face, my face, my face
Please get me off of my knees
I'm just begging You please, please, please

[Chorus]
Cause I'll be taking you right by the hand
And I know that you don't understand

Break, you're breaking on through the day
Just helping me on my way, the way, the way
But time is now on my side, it's now on my side
Makes me feel I'm alive

Please, I'll be checkin' out
I'll be checkin' out

[Chorus]

You'll understand
