

# Just a Fool ( ft. Blake Shelton)

Christina Aguilera

Another shot of whisky please bartender  
Keep it coming 'til I don't remember at all  
How bad it hurts when you're gone  
Na Na Na  
Turn the music up a little bit louder  
Just gotta get past the midnight hour  
Maybe tomorrow it won't  
Be This  
Hard Who am I kidding  
I know what I'm missing  
I  
I had my heart set on you  
But nothing else hurts like you do  
Who knew that love was so cruel  
Yeah yeah yeah  
And I  
Waited and waited so long  
For someone who'll never come home  
It's my fault to think you'll be true  
Yeah yeah  
I'm just a fool  
Yeah  
I said that I don't care  
And walk away whatever  
And I tell myself we were bad together  
But that's just me trying to move on  
With  
Out You  
But who am I kidding  
I know what I'm missing  
I  
I had my heart set on you  
But nothing else hurts like you do  
Who knew that love was so cruel  
Yeah yeah yeah  
And I  
Waited and waited so long  
For someone who'll never come home  
It's my fault to think you'll be true (yeah yeah)  
I'm just a fool  
For holding on to something that  
Never ever gonna come back  
I can't accept that it's lost  
I should have let it go  
Held my tongue

Kept my big mouth shutCause now everything's so wrong

Ooooh wrong

I'm just a fool

A fool for you

I'm just a fool

I had my heart set on you

But nothing else hurts like you do

Who knew that love was so cruel

Yeah yeah yeah

And I

Waited and waited so long

For someone who'll never come home

It's my fault to think you'll be true

Yeah yeah

I'm just a fool

I'm just a fool

I'm just a fool

It's my fault to think you'll be true

Yeah yeah yeah

I'm just a fool
