Walk At Night

Cults

When I walk at night I cant help but i know its right
when i walk alone im hoping for things unknown
When im on my own i try to get as far from home
when I wanna be, there's no bright light surrounding meWhen I walk at night I cant help but i know its right
when i walk alone im hoping for things unknown
when i clear your side, im searching for some surprise
when im by your side i cant forget all our tiesWhen im on my own i try to get as far from home
when I wanna be, there's no bright light surrounding meyou keep on tryin to make make believe
that no one knows of your lies and your deceit
there's no use in me tryin to be the things
I wanted and that's right for me
there's no point playing hard to get
I figured i'll just sit on your swing
it's easy singing everyday until I walk at night
