

Midnight Highway

The Blue Dogs

They got a new freeway in my town
That just goes round and round and round
Late at night when I'm missing you
And there's nothing else I can do
The wheels start turning in my mind
There's only one way I can unwind I'm going to ride that midnight highway
Till I find my way back to you
Though I know I'm going nowhere
I don't care if I can drive away these blues There's something about the way I feel
Each time I get behind the wheel
The way to you becomes so clear
Though I can't get there from here
I guess I'll keep rolling on
Until you find your way back home I'm going to ride that midnight highway
Till I find my way back to you
Though I know I'm going nowhere
I don't care if I can drive away these blues
The wheels start turning in my mind
There's only one way I can unwind
I'm going to ride that midnight highway
Till I find my way back to you
Though I know I'm going nowhere
I don't care if I can drive away these blues
