## **Bright Lights, Big City**

## **The Animals**

Bright lights, big city, they've gone to my baby's head The bright lights, big city, gone to my baby's head I tried to tell you woman, you won't believe a thing that I saidIt's alright, pretty baby yeah, you'll need my help someday

It's alright, pretty baby, you'll need my help someday You're gonna wish you had listened to some of these things that I saidYou know I told you, baby Bright lights, big city, gone to my baby's head The bright lights, big city, gone to my baby's head Tried to tell you woman, you won't believe a thing that I saidBaby Oh, yes nowIt's alright, baby, you'll need my help someday It's alright, baby, you should have listened to what I saidYou know I warned you, baby

About the long Cadillacs with the big shiny pims

Men with money, cigarettes, flamingo, scotch, bourbonYeah, the bright lights, big city, gone to my baby's head The bright lights, big city, yeah, gone to my baby's head

I tried to tell you woman, you won't believe a thing that I said

Rolls Royce Silver Cloud, baby
