

Make Up Sex

Pretty Ricky

Make up sex
That's what we are doing
Girl, what's next
We are always getting into it
You know why I came to see you
You don't take my calls
And you won't return my pages
I am yelling 'cause you are screaming
Should I just pull out?
These words can be misleading
You scratch my back
But it's not a fight
We finished arguing much earlier tonight
What we're doing now is what people do
Seems like we're ending it
But we're just having
Make up sex
That's what we are doing
Girl, what's next
We are always getting into it
Hush, hush girl, neighbors can hear us
It's too much noise
(We gotta keep it down)
Sometimes harsh words come between us
But it's okay, 'cause it's a heated moment, ow
But it's not a fight
We finished arguing much earlier tonight
What we're doing now is what people do
Seems like we're ending it
But we're just having
Make up sex
That's what we are doing
Girl, what's next
We are always getting into it
Make up sex
That's what we are doing
Girl, what's next
We are always getting into it
I want you, I need you, we're having, make up sex

We break up, and we make up, we're having, make up
Sex, when I touch you, and I tease you, just to please you
Make up sex when we make love, after making up
'Bout to tear it up, ooh
