

When the People Find Out

Steve Earle

It's late at night
You're all alone
Pale moonlight
Cold as snow
Heart beats fast
Time moves slow
Strangers glance
Does he know? Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide
When the people find out
That you lied? Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide
When the people find out
That you lied? They took you in
Made you well
I told you things
They never tell
To pay the debt
You made 'em fools
That's what you get
They trusted you Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide
When the people find out
That you lied? Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide?

Where you gonna run to?
Where you gonna hide
When the people find out
That you lied? When they run to
The temple and find
That the treasure's gone
Do you think it's gonna be a cross?
They're gonna nail you on, yeah Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide
When the people find out
That you lied? Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide
When the people find out
That you lied? Yeah, where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide?
Where you gonna run to?
Where you gonna hide
When the people find out
That you lied?
