

The Devil's Candy

Gary Allan

Smoky old bars, bright neon lights
Good ole boys and girls of the night
An ice cold beer and a good shot of brandy
I've always had a sweet tooth
For the Devil's candy And I've fought it all my life
And the battle's now a war
But I'll get up tomorrow
And I'll fight it all once more
I want to do what's right
But I'll never understand me
I've always had a sweet tooth
For the Devil's candy Well I've played the cards and I've rolled the dice
Well I gave up heaven for a fool's paradise
I once lost an angel when a bad girl was handy
I've always had a sweet tooth
For the Devil's candy And I've fought it all my life
And the battle's now a war
But I'll get up tomorrow
And I'll fight it all once more
I want to do what's right
But I'll never understand me
I've always had a sweet tooth
For the Devil's candy
