

# Softly

## Apo

I remember that kiss in a cold world, oh, girl  
Sunlight fell from your lips, tenderly you shattered me  
Somehow you touched me like no one else  
Slipped into my soul like a prayerBaby, with the sweetest kiss  
Came along and stole my breath  
Tore down my defenses with a whisperOh, you showed me how love can be  
You broke through to my heart  
Softly, baby, softlyYou're like God in this world, fragile, beautiful  
There's so much trust in your eyes  
They make me remember blue skies and sunshine  
I wanna be what you see in me  
I wanna love you the way that you love meBaby, with the sweetest kiss  
You came along and stole my breath  
Tore down my defenses with a whisperOh, you show me how love can be  
You break through to my heart  
SoftlyI don't wanna be that strong  
If it means being alone  
I wanna stay with you where I belongAnd let you show me just how good love can be  
You break through to my heart  
Softly, baby, softly  
Softly, baby, softly
