

# Only You (Re-Recorded) [Remastered]

## Teddy Pendergrass

Come on You, you got, you got  
You got what I want  
You got, you got, you got what I need  
Only you, baby, only you  
Only you, you, you, you, you [Chorus]  
I ain't never had nobody  
Love me like you do  
I ain't never had nobody Please me through and through  
I ain't never had nobody  
Talk to me this way Nobody even comes close  
When it comes to loving me You come on, you got, you got  
You got what I want  
You got, you got, you got what I need  
Only you, baby, only you  
Only you, you, you, you, you [Chorus] Get me the key to the door  
I ain't never had nobody  
Take away my troubles When I'm down and out, girl  
You come running on the double You, you got, you got  
You got what I want  
You got, you got, you got what I need  
Only you, baby, only you  
Only you, you, you, you, you  
You, you, you, you, you, you [Chorus] Please me through and through  
I ain't never had nobody  
Talk to me this way Nobody even comes close  
When it comes to loving me You, you got, you got  
You got what I want, yes, you do  
You got, you got, you got what I need  
Only you, baby, only you, only you  
You, you, you, you, you, you, you, you You got, you got, you got, you got  
You got what I want  
You got, you got, you got, you got  
You got what I need, yes, you do Only you, you, only, you  
Only you, you got, you got  
You got what I want  
You got, you got, you got
