

# Love The Way

Jorge Santana

I love the way you make me love you  
I love the way you make me smile  
I love the way you make me want you  
Sit right down and stay a while

Cause with you by my side I know I can make it  
Oh just give me your love I want you so much and I love you

Of all the times we've been together  
It so hard to let them go  
Well could it be we'll last forever  
Only time will let us know

Cause with you by my side I know I can make it  
Oh just give me your love I want you so much and I love you and I need you

I love the way you make me love you  
I love the way you really do  
For me there couldn't be no other  
Just thinking of things that we've been through

Cause with you by my side I know I can make it  
Oh just give me your love I want you so much and I love you and I need you
