

# Next Time

Billy Currington

So there's somewhere you gotta be  
Well I sure hate to see you leave  
I'll break my grip but babe you need to know  
Next time I might not let you go I know what you said and I wanted that to  
But taking it slow's getting harder to do  
It's feeling more and more like forever holding you close  
And next time I might not let you go Good thing I don't get paid to think  
'Cause I sure thought I had the strength  
To fight love off but my resistance is running low  
And next time I might not let you go I know what you said and I wanted that to  
But taking it slow's getting harder to do  
It's feeling more and more like forever holding you close  
And next time I might not let you go Yeah next time I just might  
Hold on for dear life Yeah next time I might not let you go  
Next time I might not let you go So there's somewhere ya gotta be  
Well I sure hate to see you leave
