Welcome To the World

Mama Cass

Welcome to the world of love and laughter, baby
Welcome to the sunshine of a brand new day
You drifted onto the scene
you powered into a dream
A dream that never will fade away

Living in the world of love and laughter baby
We can find the secret to a constant smile
The music no one can hear
will sound for us loud and clear
To find forever, it takes a while
It's time to give our love a chance
The music is going, shall we dance?

Welcome to the world of love and laughter baby
Welcome to the sunshine of a brand new day
You drifted onto the scene
you powered into a dream
A dream that never will fade away
Welcome to the world of love and laughter, baby
Everywhere the world of love and laughter, baby
