

# Welcome To the World

## Mama Cass

Welcome to the world of love and laughter, baby

Welcome to the sunshine of a brand new day

    You drifted onto the scene

    you powered into a dream

    A dream that never will fade away

Living in the world of love and laughter baby

    We can find the secret to a constant smile

        The music no one can hear

        will sound for us loud and clear

        To find forever, it takes a while

        It's time to give our love a chance

        The music is going, shall we dance?

Welcome to the world of love and laughter baby

Welcome to the sunshine of a brand new day

    You drifted onto the scene

    you powered into a dream

    A dream that never will fade away

Welcome to the world of love and laughter, baby

Everywhere the world of love and laughter, baby
