Roots

The O.C. Supertones

I never felt like this, I never loved like this
I never seen the light shine so brightNever be the same, never be the same, no
Never be the same, never be the same, no
Never be the same, never be the same, no
Never be the same, never be the same, noI have no other Gods, there are no other Gods
Jehovah Nissi, Lord over my victoryNever be the same, never be the same, no
Never be the same, never be the same, no
Never be the same, never be the same, no
Never be the same, never be the same, no
