Tug Of War

Ratt

When I'm alone and filled with promise
Sometimes I feel nothing at all
I don't believe that silence is golden
I don't want to straySometimes daylight drives me crazy
When you believe in the one and all
Some black masks roll out their feelings
I don't want to stray
If it's something I might have saidLife is a tug of war, slap in the face
Life is a tug of war, all over the place
Life is a tug of war, let's cut to the chase
Every night I dreamSoon you'll think love really happens
Now you got me up against the wall
Something went wrong and I feel like crawlin'
Back into your arms again
Show your faith, I'm your friendLife is a tug of war, a slap in the face
Life is a tug of war, a total disgrace
Life is a tug of war, let's cut to the chase
Life is a tug of war, in sorrow and painLife is a tug of war, I can't explain
Life is a tug of war, all over the place
Life is a tug of war, a total disgrace
Every night I dreamSo give it all you got
And give it your best shot
If something's wrong then make it rightLife is a tug of war, a slap in the face
Life is a tug of war, a total disgrace
Life is a tug of war, let's cut to the chase
Life is a tug of war, in sorrow and painLife is a tug of war, I can't explain
Life is a tug of war, all over the place
Life is a tug of war, a total disgrace
Life is a tug of war, in sorrow and painLife is a tug of war, a slap in the face
Life is a tug of war, a total disgrace
Life is a tug of war, let's cut to the chase
Life is a tug of war, in sorrow and painLife is a tug of war, I can't explain
Life is a tug of war, all over the place
Life is a tug of war, a total disgrace
