

# Tug Of War

Ratt

When I'm alone and filled with promise  
Sometimes I feel nothing at all  
I don't believe that silence is golden  
I don't want to stray Sometimes daylight drives me crazy  
When you believe in the one and all  
Some black masks roll out their feelings  
I don't want to stray  
If it's something I might have said Life is a tug of war, slap in the face  
Life is a tug of war, all over the place  
Life is a tug of war, let's cut to the chase  
Every night I dream Soon you'll think love really happens  
Now you got me up against the wall  
Something went wrong and I feel like crawlin'  
Back into your arms again  
Show your faith, I'm your friend Life is a tug of war, a slap in the face  
Life is a tug of war, a total disgrace  
Life is a tug of war, let's cut to the chase  
Life is a tug of war, in sorrow and pain Life is a tug of war, I can't explain  
Life is a tug of war, all over the place  
Life is a tug of war, a total disgrace  
Every night I dream So give it all you got  
And give it your best shot  
If something's wrong then make it right Life is a tug of war, a slap in the face  
Life is a tug of war, a total disgrace  
Life is a tug of war, let's cut to the chase  
Life is a tug of war, in sorrow and pain Life is a tug of war, I can't explain  
Life is a tug of war, all over the place  
Life is a tug of war, a total disgrace  
Life is a tug of war, in sorrow and pain Life is a tug of war, a slap in the face  
Life is a tug of war, a total disgrace  
Life is a tug of war, let's cut to the chase  
Life is a tug of war, in sorrow and pain Life is a tug of war, I can't explain  
Life is a tug of war, all over the place  
Life is a tug of war, a total disgrace
