

Rival (live)

Black Rebel Motorcycle Club

I got different debates, my eyes don't survive
I'm living with the loss and we're livin' in denial
Good thing you question who's gonna carry on
There's no one to make then there's no one who can play along I need a rival I need a rival
I'm tired of the fools I'm killin' for survival
I need a rival i need a rival
I found my soul and I set it on fire
I'm nothing like you, I'm not the innocent
I'm just a sign, it's all gone wrong We're nothing like you, we're not the innocent
We're just a sign, it's all gone wrong
Well I got the lip, but there's no one available
I've seen at all before, and firing up a sandstorm
I go to places no one should ever go
I'm living like I knew what the hell I was looking for I need a rival I need a rival
I'm tired of the fools I'm killing for survival
I need a rival I need a rival
I found my soul and I set it on fire My souls on fire I live in superstition, my souls on fire I carry on the fight
My souls on fire I live in superstition, my souls on fire I carry on the fight
My souls on fire I live in superstition, my souls on fire I carry on the fight
My souls on fire I live in superstition, my souls on fire I carry on the fight We're nothing like you, we're not the
innocent
We're just a sign, it's all gone wrong I'm nothing like you, I'm not the innocent
I'm just a sign it's all gone wrong I need a rival I need a rival
I'm tired of the fools and killin' for survival
I need a rival I need a rival
I found my soul and I set it on fire
