Love Sick

Richgirl

Page us to depression As you realize that you're helpless Do you mind if I suggest you let it burn? Take it from a broken hearted scholar Who would've bet my bottom dollar We would work But I considered lesson learned I know your heart is breaking down Can you feel the pain working? I bet you feel so lonely now And there's no one there to comfort you Because you cheat the one you call on And she left you all alone But the tears you shed you can count on But your tears won't let you down so cry, cry, cry Cry, cry, cry, cry Fill me up an ocean Cry me up a river, boy, I hope I hope, I hope you feel so lonely That you wanna throw up Hope your nights are so cold 'Cause you're missing my love Got you love sick, love sick And you know I'm loving it Listen closely You can hear me laughing Sleep now baby But when you wake up it'll be the same You'll realize nothing's changed To live in a state of agonizing pain It won't last forever But now it hurts like hell I know it may be cold But I, I still can't wish you well I know your heart is breaking down Can you feel the pain working? I bet you feel so lonely now And there's no one there to comfort you Because you cheat the one you call on

No surprise she ain't there But the tears you shed you can count on

But your tears won't let you down Cry, cry, cry, cry Fill me up an ocean Cry me up a river, boy, I hope I hope, I hope you feel so lonely Bet you wanna call her Hope your nights are so cold 'Cause you're missing my love Cry, cry, cry, cry Fill me up an ocean Cry me up a river, boy, I hope I hope, I hope you feel so lonely Bet you wanna call her Hope your nights are so cold 'Cause you're missing my love I'm loving that you're hurting I'm loving you feel pain It's Karma, it's for certain This time you're in the game So glad that it's your tears Hope that it takes time to heal Yes, heartbreak is for real Now you see how I feel Cry, cry, cry, cry Fill me up an ocean Cry me up a river Boy, I hope, I hope I hope you feel so lonely That you wanna throw up Hope your nights are so cold 'Cause you're missing my love Cry, cry, cry, cry Fill me up an ocean Cry me up a river Boy, I hope, I hope I hope you feel so lonely That you wanna throw up Hope your nights are so cold 'Cause you're missing my love
