

I Done You so Wrong

The Paper Kites

You ask me, and I'll tell
Never walked such a desolate hell,
But my holding is still strong
And I know that i done you so wrong,
When you go away, you're still in my
still in my headMy waver, my foe
In the morning I let it all go
But I'm needing, and I'm cold
Don't want that we'll never grow old
When you go away, you're still in my
still in my headDon't give up, don't give up
Weather me,
Don't smooth the rough, don't smooth the rough
Weather meI feel it and I know
It runs deeper than I ever show
We walk even, we walk far
keep my close keep me safe from harm
When you go away, you're still in my
still in my headDon't give up, don't give up
Weather meDon't smooth the rough, don't smooth the rough
Weather me
