

# Lovedrug

## Mobile

I gotta feel so tired  
I got my head so tight  
I gotta know what's right  
I got my hands untied I got a fever so high  
I got a real sore side  
The heaven's dusty white  
I gotta feel so high Turn away while I celebrate  
Will you tolerate while I waste the day away?  
Suffocate when you keep me straight  
Torture everyone and I don't feel guilty comin' down I kinda feel so light  
I kinda feel so right  
I gotta know how high  
The day becomes the night I got a fever so high  
I got a real sore side  
The heaven's dusty white  
I gotta feel so high Celebrate like a holiday  
As I violate all the rules I thought I made  
Suffocate while you keep me straight  
Will you keep me safe?  
I thought I lose myself under your control Aldous, just you turn the lights out  
Everyone's around Beautiful lies just walked into my life  
Honestly, I'll let it go Celebrate like a holiday  
As I violate all the rules I thought I made  
Heaven's gate drownin' in the wave, lying in the wake  
I thought I'd lose myself in you, in you  
I thought I'd lose myself under your control
