

Black Bugs

Regurgitator

I got killed by black bugs on my video game
And then although to myself it doesn't mean too much
I keep dying and dying over and over again
And now I feel I'm alive so I'll just pretend
What's at the end? What's at the end?
What's at the end of Satan's rainbow?
What's at the end? What's at the end?
What's at the end of Satan's rainbow? Stared at the TV too long now and I'm not the same
I've got to remind myself that it's just a game
It's getting harder and harder to get to sleep at night
I think I'll let them shoot me so that I can die
What's at the end? What's at the end?
What's at the end of Satan's rainbow?
What's at the end? What's at the end?
What's at the end of Satan's rainbow? What's at the end? What's at the end?
What's at the end of Satan's rainbow?
What's at the end? What's at the end?
What's at the end of Satan's rainbow? What's at the end? Tell me is this the end?
What's at the end of Satan's rainbow?
What's at the end? What's at the end?
What's at the end of Satan's rainbow? What's at the end? What's at the end?
What's at the end? What's at the end?
What's at the end? What's at the end?
