## Calla

So far and gone  
Sleepwalk, wake or run  
Come back or leave me out  
You can leave me out Last night I swore I saw her come to me in a dream  
Like a storm forming  
Father, will She come again?  
I've seen the day conquer the night  
Drifting with the wind like dawns curtain closing as it caves me in So far and gone
