

# Another Radio Station

Clifford T. Ward

Another radio station  
Another dream that's about to come true  
We may not reach all the nation  
But we' got the means to capture you  
We' got something for everyone  
M.O.R. to rock and roll  
And for all you classical jazz freaks  
We got more rock and roll. Another smooth operation  
Another chance to make some cash  
And it's all down to slick professionalism  
Sheer class  
We'll give you sport and up-to-the-minute news  
We'll dish out odd and local events  
And for all you radio watchdogs  
There'll be nothin' that offends  
We got the money and expertise  
We got the license and we wanna please  
All it needs is you to change your brand  
Switch the waveband, that's all it takes  
Come on, give us a commercial break. We're gonna take all the issues  
And avoid 'em like the plague  
We're gonna give you what we think you should have  
Keep it bland and vague. Another radio station  
Another dream that's about to come true  
We may not reach all the nation  
But we' got the means to comfort you.
