Raindrops (feat. Kerli)

SNBRN

Like raindrops from the desert sky
For you I've been waiting
Like sea of stars in endless nights
For you I'll be waitingIt's like I can breathe (breathe, breathe, breathe)
Finally (breathe, breathe)
Can we stay like this forever?Once you've taken me over
Come a little bit closer
A little bit closer
Oh we'll go together
Bring me up from the under
Come a little bit closer
A little bit closer
Can we stay like this forever?Once you've taken me over
Come a little bit closer
A little bit closer
Oh we'll go together
Bring me up from the under
Come a little bit closer, closer
(Come a little closer)Once you've taken me over
Come a little bit closer
A little bit closer
Oh we'll go together
Bring me up from the under
Come a little bit closer, closer
(Come a little closer)
(Come a little closer)Like raindrops from the desert sky
For you I've been waiting
With your touch I come alive
For you I'll be waitingIt's like I can breathe (breathe, breathe)
Finally breathe (breathe, breathe)
Can we stay like this forever?Once you've taken me over
Come a little bit closer
A little bit closer
Oh we'll go together
Bring me up from the under
Come a little bit closer
A little bit closer
Can we stay like this forever?Once you've taken me over
Come a little bit closer

A little bit closer
Oh we'll go together
Bring me up from the under
Come a little bit closer, closer
(Come a little closer)Can we stay like this forever?
Once you've taken me over
Come a little bit closer
A little bit closer
Oh we'll go together
Bring me up from the under
Come a little bit closer, closer
(Come a little closer)
(Come a little closer)
