

Let Me Know

Verse Simmonds

[Hook]

Girl you know I'm feeling you

Yeah when it's just us two

Mean no disrespect to you

But if that's your girl, can she come too?

Let me know, let me know

Baby you can come and she can come too

Let me know, let me know

Baby let me know if she can come too[Verse 1]

Baby I don't mean no disrespect

Maybe it's the liquor, maybe I'm just lit

Maybe I'm just imaging shit

But it can't hurt to try, no no way

Keep it real with the fly

We can fuck in the mirror

Me, you and her

A triangle affair

I got loving to tell you, you know what it is

You be talking that shit, I been waiting for this

Hurry up, I'm not late

Hope you don't feel no way, I been thinking about this all day

She being on you and you being on me

We can make this shit one big party

And I hope you not selfish baby

Cause I'm feeling you, I'm feeling[Hook]

Girl you know I'm feeling you

Yeah when it's just us two

Mean no disrespect to you

But if that's your girl, can she come too?

Let me know, let me know

Baby you can come and she can come too

Let me know, let me know

Baby let me know if she can come too[Verse 2]

Might think that I'm wrong for this

You might think that I'm scandalous

And I don't know if you into this

But I can't help but notice

You admiring her, she admiring you

Got all up on each other, y'all up to no good

Body language
I can read your body language
I can see your real intentions
Y'all ain't fooling anybody
And it's right after the party
We gon' have ourselves a party[Hook]
Girl you know I'm feeling you
Yeah when it's just us two
Mean no disrespect to you
But if that's your girl, can she come too?
Let me know, let me know
Baby you can come and she can come too
Let me know, let me know
Baby let me know if she can come too[Outro]
Your flirting days all over each other
Y'all smacking ass and god damn, I love it
We ain't gotta play by the rules
Let's go ahead and get us a room
