

Fading Away

Celesty

Take me away from this cold alley
We call these words before i die
This is my end you need to carry
No turning back, it's my last time

I know this night will be the last one for me
I feel so cold and i'm alone
Save this land from the evil insult
So i get a little free as a spirit in the sky
spirit in the sky, spirit in the sky

[Chorus]
Fading away
I'm sealed in this stone wall
Fading away
Can't you hear my last call
[Chorus end]

I was so close to end this battle
I was afraid i couldn't see
Used to live, it's all that matters
Now you can own this victory

I know this night will be the last one for me
I feel so cold and i'm alone
Save this land from that evil insult
So i get a little free as a spirit in the sky
spirit in the sky, spirit in the sky

[Chorus]
Fading away
I'm sealed in this stone wall
Fading away
Can't you hear my last call
These eyes can see your light
Only to wake up, fate to die
So i'm fading away
I'm waiting for you there behind that plight
[Chorus end]

Welcome inside
I've saved a seat for you
So entice my mind
I guess you've never recieved so close you're alive
It's your last time

[Instrumental]

[Chorus]
Fading away
I'm sealed in this stone wall
Fading away
Can't you hear my last call
[new]
These eyes can see your light
Only to wake up, fate to die
So i'm fading away
I'm waiting for you there behind that plight
[Chorus end]

So i'm fading away
I'm waiting for you there behind that plight
