

Come and See Me Interlude

Ludacris

Some days I think I love my whip more than I love my bitch

Everytime we argue I just hop up in my whip and split

And my car never talked back to me

It just turned up and played this track to me

And my girl getting jealous trying to wild on her

Calling her used cuz I actually got so many miles on her

And try to make her feel inferior

Since I'm rubbing on my Acura's interior

Whenever I'm with either of my ladies I just love her

See cuz one rides me while I ride in the other mane

I'm bout to go get in trouble mane

With the one that's like my sidekick the other thinks she my mother mane

And I ain't with that

They both got mean bodies but with this Maserati see how I trip that

Pretty feat with nice painting they both drop the top

And both stressing everythang in the parking lot

Gone
