

Scary Drifter

Rock 'n' Roll Worship Circus

Do you see him coming? Did you hear that cries?
Of the holy, scary drifter with fire in his eyes?
Look around, he's coming back for you
Feel the wind is rushing, tearing through the sky
See the clouds are formin' His glory's passing by
Join with angels, all you sons of men and let us sing
Let the earth, and all that's in it, clap our hands and shout out loud
With all of our voices singing, "Glory to the Holy Lamb of God"
So let the earth, and all that's in it, clap our hands and shout out loud
With all of our voices singing, "Glory to the Holy Lamb of God"
The earth will shake, nations tremble, mountains melt, before our God
Livin' creatures will proclaim, "Glory to the Holy Lamb of God"
So let the earth, and all that's in it, clap our hands and shout out loud
With all of our voices singing, "Glory to the Holy Lamb of God"
