

Rainy Day Blues

Willie Nelson & Wynton Marsalis

Well it's cloudy in the morning gonna be raining in the afternoon

Cloudy in the morning and it's gonna be raining in the afternoon

If you don't like this rainy weather you better pack your bags and move
But if you're running from it brother the
only road that I can see

If you're running from it brother the only road that I can see

Is the road that leads to nowhere and nowhere is a fool like me
Rain keep a falling falling round my window pane

Rain keep a falling falling round my window pane

Ain't never seen so much rainy weather guess I'll never see the sun again
(guitar + harmonica) Save those dimes
and nickels save 'em for a rainy day

Save your dimes and nickels save 'em for a rainy day

It ain't gonna keep the rain from coming but at least you know you've paid your way

Rain keep a falling falling round my window pane

Rain keep a falling falling round my window pane

Ain't never seen so much rainy weather guess I'll never see the sun again
