

# Every Step Is A Way Through

## Teenage Fanclub

(Love)

Think it's time you got out of bed and followed through

'Cause a working clock never stops to miss the change

On the front line,

You're in the sunshine

Every step is a way (every step is a way)

Every step is a way (every step is a way)

Every step is a way through

If you find you're walking on air just open a window

If you find someone who cares then lock the door

On the front line,

In the sunshine

Every step is a way (every step is a way)

Every step is a way (every step is a way)

Every step is a way through
