Brother

Mighty Oaks

We had howl oohWe'd run around
The summer in the nighttime
We make no sound
Deep in the forest we get lost
Whistle to the Birds as they call
Go on trips
Moving with weather as it shifts
We took to the seas and let it drift
How many islands could we hear?1, 2, 3, 4I'd follow you
To the end of the world if only you would ask me to
On and on we go, my brother I've got you
Nothing to stop us now,Â because we found in life
What's true
Oh my brother I'd follow youWhoaÂ In my faded truck
Shot across the country to find our luck
The youth inside would scream and shout
Like a dagger in the heart we ripped it outAnd we had howl through the night
Call the stars Â by the fire shining on
Through the night
We will run,Â to the rising life and on
Through the night,Â burn the flames
The world will know our Names1, 2, 3, 4I'd follow youÂ
To the end of the world if only you would ask me toÂ
On and on we go, my brother I've got youÂ
Nothing to stop us now, because we found in lifeÂ
What's trueÂ
Oh my brother I'd follow youI'd follow youÂ
To the end of the world if only you would ask me toÂ
On and on we go, my brother I've got youÂ
Nothing to stop us now, because we found in lifeÂ
What's trueÂ
And I will follow you oh
