

# Bet No One Ever Hurt This Bad

[Linda Ronstadt](#)

Sit by my window, watch the rain  
I hear it beatin' on my window pane  
All the troubles I had  
Bet no one ever hurt this badMy baby left me all alone  
Wait for a letter, sit by the phone  
It makes me so sad  
'Cause no one ever hurt this badSince you went away, I can't face the day  
Night brings nothing but pain  
I thought I could go on, I see that I was wrong  
Baby, please come home, I just can't stand to be aloneSomebody, somewhere hear my plea  
Send my baby home to me  
It would make me so glad  
'Cause no one ever hurt this badSince you went away, I can't face the day  
Night brings nothing but pain  
I thought I could go on, I see that I was wrong  
Baby, please come home, well, I can't stand to be aloneSomebody, somewhere hear my plea  
Send my baby home to me  
It would make me so glad  
'Cause no one ever hurt this badSit by my window, watch the rain  
I hear it beatin' on my window pane  
Sit by my window, watch the rain  
I hear it beatin' on my window pane
