

# Cherry Pickin

Kate Nash

(Chorus) x2

Small town cherry pickin around the town  
You were the one I was thinking about  
You're the one I used to look around  
And now I'm driving you around the bench(Bridge)  
You better cut cut cut that cut that collar  
Got got got got gotta ride it  
You better cut cut cut that cut that collar  
Got got got got gotta ride it(Verse)  
Oh my west side now  
They way I was kicking it and how it gone  
Ye we are all the time  
And a while we don't have to runThe way you told me now the day it fell bad  
The way you look at me doesn't make you mad  
The way I used to be as long as I'm a girl(Bridge)  
You better cut cut cut that cut that collar  
Got got got got gotta ride it  
You better cut cut cut that cut that collar  
Got got got got gotta ride it(Verse)  
Why you trippin' what's the deal  
And there I was just fine got a bag appeal  
Pretend that we're there trying to feel at homeWelcome to my heart and my devices  
Oh you don't think I had my hold your horses  
With all that cope I got this now(Bridge)  
You better cut cut cut that cut that collar  
Got got got got gotta ride it  
You better cut cut cut that cut that collar  
Got got got got gotta ride it(Chorus) x2  
Small town cherry pickin around the town  
You were the one I was thinking about  
You're the one I used to look around  
And now I'm driving you around the bench(Bridge)  
You better cut cut cut that cut that collar  
Got got got got gotta ride it  
You better cut cut cut that cut that collar  
Got got got got gotta ride it
