Evil

Ufo

Heaven knows that you're an evil child
Drive me crazy, you drive me wild
Get home from work I don't feel all right
Go in your bedroom you just want to fight
Movin' in, you're movin' out, baby you move my mind about
Don't give me no reasons, don't give me no lies
Come to take you home from school you've broken all the rules
All I need is a bit of your love
All I want is a bit of your love
All I want is a part of you

Heaven knows that you're an evil child
Drive me crazy, you drive me wild
Get home form work I don't feel all right
Go in your bedroom you just wanna fight
Movin' in, you're movin' out, baby you move my mind about
Don't give me no reasons, don't give me no lies
Come to take you home from school you've broken all the rules
All I need is a bit of your love
All I want is to hold you tight
All I need is a part of you
