

Black and Blue

Sidney Bechet

There are no stars tonight
There are no words to say
I feel my soul losing you
Where did the good times go
 Baby what can we do
 Color our love
 Black and blue
 Black and blue
When our hearts were young
 Clinging to each other
 Moonlight used to glow
When our hearts were young
 Then there was no other
 Why'd we let it go
 Down on the avenue
 You can forget your name
Paint pretty pictures, false and true
 Picture what we've become
 Running is all we do
 Color our love
 Black and blue
 Black and blue
Looks like a storm tonight
Look like a storm tonight
 A storm is overdue
 A storm is overdue
 Color our love
 Color our love
 Black and blue
 Black and blue
