Last Call

Tony Jackson

I wasn't sure you'd show
Everyone else went home
so it's just two old pals for a beer

It's been our favorite little dive
We kept the joy alive
And we wouldn't leave till we hear

Last Call Last Call
Make em frosty and tall
I'm gonna miss your laugh most of all
One more toast one more round
Then we'll close this place down
And after that we'll just call it last call

We were a pair for so long
not even sure what went wrong
whatever we had we sure had a blast

You and your wicked smile
me and my feet so wild
We drank every drop in the glass

So here we sit laughing
and holding back tears
it must just be the smoke in your eyes
But what's these old jokes for
when the best that we can hope for
is to look for the good in goodbye

Last Call Last Call
Make em frosty and tall
let's drink to the fun of it all
One more Joke one more round
Then we'll close this place down
And after that we'll just call it Last Call

And after that we'll have to call it last call
