Sanctuary 13

Avail

I need a place To lay my head That's safely Out of sight From where I am Somewhere uncontrolled Where no one's led A simple change of mood That I haven't found yet
I want to be up front and honest But I can't at all Don't want to set myself Up for a fall I'll say it until I'm blue In the face And won't get a response It's so pitifully tame now Good day now drop the name Of an unknown place And I'm leaving Reason give me one reason A short invitation Or none at all
